Vision ANETI 2030

Story of Transformation

The Vision has reached a major milestone and entered the experimental phase of the new ANETI services

Click Start:

Online registration is now available for the job seekers at the 6 pilot BETs of Hammam Sousse, Gafsa, Kef, Charguia Gabes and Fouchana

The job seekers are invited to fill out the pre-assessment questionnaire to measure their employability score and segment them for personalized accompaniment

Post-creation support

A new post-creation diagnostic tool is being developed at the pilot entrepreneurial spaces of Tunis, Bizerte Monastir and Medenine to help established entrepreneurs evaluate their projects and identify areas where they can improve

New job matching tools

The Customer Relationship Management « CRM » has been developed to keep track of each company registered in the ANETI database

Using the job-scraping tool, it has become possible to extract job postings from the main Tunisian job boards. This tool is also valuable to have clear insight about the job trends and the required skill sets by city and by governorate
